## Fine Imported White Goods

An extraordinary offer of 100 pieces of exceptionally fine imported

Figured White Madras,

32 inches wide—made from pure Egyptian Yarns, almost as fine as silk and just the right texture for hot weather wear—they come in 7 or 8 different styles.

Are Goods worth 50 and 60c a yard, on sale Monday at **29** Cents Yard

These fine goods were made for one of the largest shirt-waist manufacturers in America, and should have been delivered to him last March, but between foreign countries and this there are sometimes delays, as, in this case, the goods arrived only last week, too late for the manufacturer, and we took them off the importer's hands.

The Importer's Loss Your Gain.

White Goods Department, Main Floor.

preached by one of his auditors, who asked to speak with him a moment. The Archbishop stopped to listen.

"It seems to me," began the person, "that you take quite a cheerful outlook upon life. The misery and misfortune of this world don't trouble you. Hiding yourself in your religion, you don't see the masses of workmen, who, tired of waiting for the happiness of the world to come, knock at your door and ask for a little in this one."

"Ah, yes, my friend, I do," answered the Archbishop. "I have felt and seen all that; but, after all, I find that the only way to the most of us to render life supportable is to work without reasoning."

### MAMMOTH ASPARAGUS PLANT.

Break Specimen Discovered in a Garden Near Wellington.

A new specimen of mammoth white asparagus was received by the Plant Seed Company in a consignment of asparagus from the Lammering gardens, Wellington, N.Z. Instead of the usual cylindrical form the stalk is columnar in shape and four inches in width. It is thirteen inches long, an unusual length for asparagus, and is but the ordinary thickness of the plant.

The owners of the garden where the specimen was grown propose to allow an entire patch, which has borne numerous specimens of the same kind this year, to run to seed and will try to cultivate a new species. It is claimed that on account of its peculiar shape the plant will be much easier to bundle for shipment.
